## OUR IMPACT

Founded with support from Georgia's leading firms in 2005, Georgia Appleseed has achieved remarkable results toward creating a more just and equitable Georgia for its children and families. For the last 17 years, our annual fundraiser has raised crucial funds to support our work, celebrated leaders in our community, and recognized firms and organizations committed to building a bright future for all of Georgia's children.

## ABOUT US

**Our mission** is to increase justice in Georgia through law and policy reform and community engagement.

**Our values** include nonpartisan engagement, collaborations to achieve justice, listening to those who are most impacted, balanced and objective research, data-driven, pragmatic solutions, courage to tackle the hard issues, and the power of pro bono.

## OUR CORE PRINCIPLES

1. Keep kids in school and out of the criminal justice system.
2. Promote supports for students with behavior and learning challenges.
3. Ensure children and their families have safe and healthy housing.
