

Uncover the Gaps

A Personalized IEP Review Consultation

June 12, 16, 18

Do You Need Support?

Does your child have an Individualized Education Program (IEP)? Do you understand it? Does it accurately capture your child's needs and the supports and accommodations to address them?

We're ready to help you answer questions like these.

About Our Free Clinic

Georgia Appleseed is a nonprofit law center supporting Georgia's children and families. Our "Uncover the Gaps" online clinic is designed to help families navigate the special education system. We are offering parents a free, 30-minute, one-on-one consultation with a special education advocate.

In your virtual consultation, a trained advocate will:

**Review the student's
current IEP**

**Discuss parental
concerns**

**Provide tailored
recommendations**

Please note: These sessions are for consultation purposes only, and will not include legal representation at future IEP meetings

How to Prepare

Choose Your Date

- 30-minute sessions are available on **June 12, 16 & 18**

Register

- Register using the QR code of the link below:
- <https://forms.office.com/r/EJWn0iUEET>

Submit Your Child's IEP

- To participate, families must submit a copy of their student's IEP, with a brief description of the concerns to be addressed, when they register for a session.
